Continued Examination Under 37 CFR 1.114

Receipt is acknowledged of a request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e) and a submission, filed on 3/15/06. The submission, however, is not fully responsive to the prior Office action of 12/20/05 because the invention has been switched to transgenic animals having a nucleic acid encoding Apo-2 receptor from the invention previously under examination: method of inducing apoptosis using an anti-Apo-2 agonist antibody. These inventions are independent and distinct, requiring different searches, are separately classified and have acquired a different status in the art. According to MPEP 706.07(h): "Applicants cannot file an RCE to obtain continued examination on the basis of claims that are independent and distinct from the claims previously claimed and examined as a matter of right (*i.e.*, applicant cannot switch inventions). See 37 CFR 1.145. Any newly submitted claims that are directed to an invention that is independent and distinct from the invention previously claimed will be withdrawn from consideration and not entered." Since the submission appears to be a *bona fide* attempt to provide a complete reply to the prior Office action, applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this letter, whichever is longer, to submit a complete reply. This shortened statutory period for reply supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37 CFR 1.136(a).
